In light of yesterday's tragic events in Rancho Tehama, the Tehama County Department of Education would like to recognize the heroic efforts of the school staff. Their quick thinking and protective instincts saved countless lives. The staff had literally seconds to get students into classrooms and to lock doors. They were very well prepared.

We would like to recognize our first responders for their heroic efforts as well. They quickly brought order and closure to the scene.

The community has been overwhelmed with local, state, and national support, for which we are extremely grateful.

Most importantly, we would like to offer our condolences and support to all of the families affected by this senseless act. Our hearts go out to all of those affected.
