Tehama County Department Of Education holds the Tehama County UPK Mixed Delivery Grant. The purpose of the grant is to plan our UPK delivery throughout the county.

UPK is an important part of a statewide effort to provide support for children and families and transform California's schools to be more community-focused and equitable.

UPK brings together Transitional Kindergarten (TK) and all existing State Preschools and Federal Early Education, Private Childcare, and Expanded Learning Opportunities, including before and after school programs into the same system, benefiting children and families.
