

Why Literacy Development?

CCSS ELA/ELD Framework for Technical Subjects embeds literacy practices- investigation, close reading, analysis of evidence and argumentative writing- into each discipline emphasizing that students need to read, write and think in a discipline-specific way.

Here's
one way to look at it:

edutopia.org

Content is the **WHAT** we teach, but

there is also the **HOW**, and this is

where literacy instructions comes in

Literacy Development

Need help in developing literacy in technical subjects? We can offer support and training in literacy development in:

Science

Math

Writing

Career Tech Education

History/Social Science Visual & Performing Arts

Examples of literacy development might include:

- Close reading of primary documents
- Using evidence from the text to support answers
- Using models to explain thinking
- ... and many more!

"...goals call for California's students, by high school graduation, to have developed the readiness for college, careers, and civic life; attained the capacities for literate individuals; become broadly literate; and acquired the skills for living and learning in the 21st century."
